First announcement

13th – 15th September 2006

**Hotel Maestral, Budva
Montenegro**

INTRODUCTION

It is our pleasure to invite you, on behalf of the Organizational Committee, to the First International ICQME Conference that will be held on the Montenegrin coast between September 14 and 15, 2006.

The First International ICQME Conference will be realized in the organization of the Center for Quality of the Mechanical Engineering Faculty in Podgorica, and will be sponsored by the Government of the Republic of Montenegro. The idea of Conference has first come to life when a need was felt to have the tenth traditional National Conference on Quality Management System (SQM) with the international participation evolve into an international conference, with an extension of thematic areas to be covered.

National Conference on Quality Management System (SQM) with the international participation has been gathering prominent experts from the field of quality over the last nine years. In addition to the local, Serbia and Montenegro experts, the participation lists included a number of well-known scientists and experts from France, England, Italy, Denmark, Slovenia, Bosnia-Herzegovina, Croatia, and Macedonia.

At the First International ICQME Conference some of the vital issues of quality, management, engineering, education, and environmental protection will be discussed, and the participants will be from both the university and the commercial fields, which will contribute to a more productive exchange of ideas and experiences.

Zdravko Krivokapić, Ph.D.

Milan Perović, Ph.D.
