COOPERATION AGREEMENT

The world quality initiative is a part of the world and European business efforts to adapt to the changes in the market. Quality is underscored once again as being the key element of competition, which is increasingly becoming fundamental in any business management anywhere in the world.

Starting with such beliefs, the **Association for Quality of Bosnia and Herzegovina (AQBiH)**, being an association involved in initiating, coordinating, and organising the quality improvement related activities in all fields of human creation, and the **Foreign Trade Chamber of Commerce of Bosnia and Herzegovina**, in its capacity as an association of business entities in Bosnia and Herzegovina devoted to creating an environment for an efficient and successful business operation of its members, hereby affirm their commitment to exerting joint efforts to enhance the competitiveness of the companies in Bosnia and Herzegovina by applying up-to-date quality know-how, approaches, models, and standards.

The signing of the Agreement offers new, more quality dimensions to a long-term cooperation of the signatories in promoting the quality idea and its practical implementation in the Bosnia and Herzegovina economy.

Neum, 17 November 2006

On behalf of the
Bosnia and Herzegovina
Quality Association
President
Safet Brdarević, Ph.D. Professor

On behalf of the
Bosnia and Herzegovina
Foreign Trade Chamber of Commerce
President
Slobodan Župljanin, M.Sc.
